TRADINGBIBLE HOLDINGS, INC.

CONTROLLED TEMPLATE · COUNSEL REVIEW REQUIRED

# Employer Compliance Manual

EMPLOYER-MANUAL · VERSION 1.0 · 12 NOVEMBER 2026

CONTROLLED TEMPLATE · COUNSEL REVIEW AND LOCAL ADOPTION REQUIRED. This document is a company policy or contract framework, not an executed agreement, a legal opinion, a regulatory approval, a payroll filing, an insurance policy or a promise of a benefit. Record adoption and approval references in the Workforce Compliance Register before treating it as operative.

# TRADINGBIBLE HOLDINGS, INC. — EMPLOYER COMPLIANCE MANUAL

**Controlled template · Version 1.0 · 12 November 2026**

> ***Controlled template — counsel review and local adoption required.*** *This document is a company policy or reference framework. It is not an executed agreement, a legal opinion, a regulatory approval, a payroll filing, an insurance policy or a promise of a benefit. Record adoption and approval references in the Workforce Compliance Register before treating it as operative. Local addenda control where they are more protective.*

## 1. Purpose and status

This manual is the operating control framework for the company as an employer. It covers the company, directors and managers, full-time and part-time employees, remote employees and individual contractors. It separates a requirement from the evidence that the requirement is complete. A requirement is not complete because a policy file exists; the underlying filing, signed agreement, provider record, insurance certificate or approval must exist.

**Company:** TradingBible Holdings, Inc. (Delaware corporation)

**Planned public launch:** 25 December 2026

**Workforce scope:** Direct employees, full-time and part-time employees, remote employees and individual contractors. Academy learners and instructors are product users, not employees.

**Legal boundary:** A Delaware registration does not satisfy employment, payroll, tax, insurance or workplace obligations in the country or state where a person actually works. The applicable local rules must be confirmed before a start date.

## 2. Workforce model

Do not hire all 58 catalogue roles at once. Start with a controlled core team and expand only when revenue, funding and operational need justify the role. Distinguish appointed people from open positions; never present an open role as an existing executive.

**Priority open leadership roles (not appointments):** Chief Operating Officer · Chief Financial Officer · Chief Technology Officer · Chief Revenue Officer · General Counsel.

The company must maintain one employee and contractor register with legal name, work country and region, arrangement, start date, manager, status and exit date. A hiring catalogue is not an employee register. An open role is not an appointed person.

## 3. Employer obligations

The register is organised into five employer sections. Every item records an owner, an evidence reference, a status and a review date. The status options are: not started, in progress, complete, blocked and not applicable.

### Corporate and employment administration

The company needs a clean legal and records foundation before anyone starts work. Delaware incorporation is the starting point, not the whole answer.

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Certificate of incorporation and corporate bylaws | Keep the filed certificate, bylaws and any amendments in the corporate record. Confirm the registered agent and Delaware registered office at the same time. | Filed certificate, bylaws, registered-agent confirmation | General Counsel / Corporate Secretary | Yes |
| EIN and IRS business tax records | Confirm the EIN has been issued and retain the IRS notice. Use the legal entity name and EIN consistently on payroll, tax and bank records. | IRS EIN notice, tax account record | CFO / Finance | No |
| Registered agent and Delaware registered office | Confirm the registered agent is active, the registered office is correct and the annual franchise tax is calendared. | Registered-agent certificate, franchise-tax calendar | Corporate Secretary | Yes |
| Company bank account and payroll funding process | Separate company funds from personal funds. Document who can initiate payroll, who approves it and how a shortfall is handled before payday. | Bank mandate, payroll funding procedure, approval matrix | CFO / Finance | No |
| Accurate employee and contractor register | Maintain one register with legal name, work country and region, arrangement, start date, manager, status and exit date. Do not use a hiring catalogue as an employee register. | Workforce register export, reconciliation date | People Operations | No |
| Written organisation chart and reporting structure | Show departments, reporting lines and vacant positions. Mark open executive roles as vacant; do not present them as appointed. | Current org chart with effective date | CEO / People Operations | No |
| Approved job descriptions and salary bands | Every role needs a written description, decision authority, location, classification and approved salary band. Bands are internal controls, not public promises. | Job-description pack, salary-band approval | People Operations / CFO | Yes |
| Employment contracts appropriate to each jurisdiction | Use a local contract for each hiring country and state. Do not use one Delaware template for every location. Counsel must review the template before use. | Counsel-reviewed contract templates by jurisdiction | General Counsel / People Operations | Yes |
| Employee handbook and workplace policies | Issue a handbook that covers conduct, security, leave, expenses, complaints, discipline and termination. Local addenda must override inconsistent global text. | Adopted handbook and local addenda | People Operations / General Counsel | Yes |
| Confidentiality and non-disclosure agreements | Every employee and contractor with access to company information signs an NDA. Do not rely on a policy acknowledgement as a substitute for a signed agreement. | Signed NDA in the personnel file | General Counsel | No |
| Intellectual property and invention assignment agreements | Confirm present and past contributors assigned trademarks, source code, domain names, designs, content and inventions to the company. Resolve gaps before launch. | Signed IP assignments, chain-of-title review | General Counsel | Yes |

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Data protection and employee privacy notices | Tell employees what personal data is collected, why, where it is stored, who can access it and how long it is kept. Collect identity, medical and financial data only for legitimate purposes. | Employee privacy notice, retention schedule, access matrix | Privacy / People Operations | No |
| Disciplinary, grievance and termination procedures | Publish a fair process, preserve records, and follow local notice and final-pay rules. Do not use a US at-will clause in a jurisdiction where it is ineffective. | Procedure, warning templates, local termination checklist | People Operations / General Counsel | No |
| Record-retention and secure personnel-file procedures | Restrict HR files to authorised people. Set retention periods by record type and jurisdiction. Do not keep identity documents in chat, email or unsecured drives. | Retention schedule, access list, storage location | People Operations / Security | Yes |
| Work authorisation and right-to-work process | Verify the right to work in the actual work location before the start date. Store only the required evidence and do not over-collect immigration data. | Verification procedure, completed check record | People Operations | No |
| Employment and securities counsel review | Have employment counsel review the handbook, contracts, policies and local addenda. Have securities counsel review any equity or option plan before it is promised. | Counsel engagement letter, review memo, approval reference | General Counsel | Yes |
| Personnel-file and onboarding procedure | Define what is collected before day one, what is signed on day one and who confirms completion. Link the procedure to the employee-file checklist. | Onboarding procedure, file checklist, owner | People Operations | Yes |

### Payroll, tax and compensation

Pay people correctly in their own country and currency. Platform credits are not salary, and a proposed token allocation is not compensation until it is approved and issued.

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Payroll system for each employee country and currency | Select a payroll provider or employer-of-record arrangement that can withhold, file and pay in the employee's location. Confirm the provider before the start date. | Provider agreement, country coverage, go-live date | CFO / People Operations | Yes |
| Employee or independent-contractor classification | Apply the local classification test. Do not label a full-time controlled worker a contractor to avoid payroll. Document the analysis for every engagement. | Classification memo, contract type, local review | General Counsel / People Operations | No |
| Salary, wages, commission and bonus policies | Set approval authority, timing, clawback rules and written commission terms. Do not promise discretionary bonuses or equity as if they were guaranteed. | Compensation policy, approved bands, plan documents | CFO / People Operations | No |
| Pay frequency and payslip process | Confirm the lawful pay frequency, payday, currency and payslip content for each location. Provide payslips where required. | Payroll calendar, payslip template, provider configuration | Payroll | No |

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Tax withholding and employer payroll contributions | Withhold and remit income tax, social security, Medicare or local equivalents. Pay the employer share and file on time. | Registration numbers, filing calendar, remittance evidence | Payroll / Tax | No |
| Social security, pension or retirement contributions | Check mandatory pension, social insurance and retirement regimes. In Nigeria, confirm Pension Reform Act coverage and NSITF obligations with local counsel. | Pension registration, contribution schedule, local advice | Payroll / People Operations | Yes |
| Overtime, minimum-wage and working-time compliance | Identify exempt and non-exempt workers correctly. Record hours where required and pay overtime or provide lawful time off. | Classification list, timekeeping procedure, rate table | People Operations / Payroll | No |
| Leave and holiday pay calculations | Apply the employee's work-location rules for annual leave, public holidays, sick leave, parental leave and final pay. Do not promise one global package without local review. | Leave policy, local addenda, accrual calculator | People Operations | Yes |
| Expense reimbursement rules | Require receipts, approval and a reasonable timeframe. Do not reimburse personal expenses without a business purpose. | Expense policy, approval workflow, reimbursement log | Finance | No |
| Final-pay and termination-payment procedures | Calculate unused leave, notice, commissions, deductions and statutory payments. Follow local timing rules and preserve the calculation. | Final-pay checklist, calculator, local counsel note | Payroll / People Operations | No |
| Payroll records and tax filings | Keep payroll registers, payslips, filings and remittance evidence for the required period. Restrict access and back up the records. | Payroll register, filing archive, retention schedule | Payroll / Finance | No |
| Salary, benefits, payroll-tax and recruitment budget | Budget the fully loaded cost of each approved role, not just gross salary. Include employer taxes, pension, insurance, equipment and recruitment. | Approved workforce budget, scenario model | CFO | No |

### Workplace, health and employee protection

A remote-first company still has workplace obligations. The applicable rules depend on where the employee works and whether the company has a physical establishment there.

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Workplace health and safety policy | Cover remote work, office work, ergonomics, emergency contact, incident reporting and the company's duty to provide a safe working environment. | Adopted H&S policy, local addenda | People Operations / COO | No |
| Risk assessments for office and remote work | Assess display-screen, ergonomic, electrical, fire, travel and lone-working risks. Review after an incident or a material change. | Risk-assessment register, review date | COO / People Operations | No |

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Accident and incident reporting procedure | Give employees a clear route to report an injury, illness, security event or near miss. Record the report and the response. | Incident form, log, escalation path | People Operations / Security | No |
| Emergency contacts and response procedures | Keep current emergency contacts for each employee and a response procedure for medical, fire, security and travel emergencies. Respect privacy. | Emergency contact register, response plan | People Operations | No |
| Anti-harassment and anti-discrimination policy | Prohibit harassment, discrimination and retaliation. Provide multiple reporting routes and a fair investigation process. Local law may add protected characteristics and deadlines. | Adopted policy, reporting channels, investigator list | People Operations / General Counsel | No |
| Equal opportunity and fair recruitment policy | Use consistent, job-related criteria. Keep interview notes and reject candidates for documented, lawful reasons. Do not ask irrelevant sensitive questions. | Recruitment policy, interview scorecards, training record | People Operations | No |
| Reasonable accommodation process | Where required, consider workplace adjustments for disability, pregnancy, religion or other protected needs. Assess each request individually and keep medical data confidential. | Accommodation request form, decision log | People Operations / General Counsel | No |
| Employee complaint and whistleblowing channels | Provide a confidential route for fraud, misconduct, safety, security and compliance concerns. Prohibit retaliation and track resolution. | Whistleblowing policy, channel, case log | General Counsel / Compliance | No |
| Workers' compensation or equivalent insurance | Confirm whether workers' compensation, employer's liability or another scheme applies in each work location. Do not assume Delaware coverage follows a remote employee. | Policy certificate, country/state coverage matrix | CFO / People Operations | No |
| Employer's liability and relevant business insurance | Review employer's liability, general liability, cyber, crime, professional indemnity and directors-and-officers cover. Confirm the entity and territory insured. | Insurance schedule, certificates, broker confirmation | CFO / General Counsel | Yes |
| Mental wellbeing and workload-management procedures | Set expectations for hours, availability, escalation and time off. Train managers to spot overload and respond without diagnosing or collecting unnecessary medical data. | Wellbeing policy, manager guidance, support route | People Operations | No |

### Technology, information security and company property

TradingBible handles customer records, financial data, software and research. Access must be role-based, logged and removed when employment ends.

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Company email accounts and identity management | Create a named company account for every employee. Do not use shared credentials or a personal mailbox for company business. Disable accounts on exit. | Identity-provider inventory, joiner/mover/leaver record | IT / Security | Yes |
| Secure employee access to company systems | Grant the minimum access needed for the role. Document who approves access and review it at least quarterly. | Access matrix, approval log, review evidence | IT / Security | No |
| Multi-factor authentication | Require MFA for email, source control, cloud, admin, payroll, banking and password-manager accounts. Prefer phishing-resistant factors for administrators. | MFA configuration, enrolment report | IT / Security | No |
| Role-based permissions and access reviews | Define roles and entitlements. Review privileged access monthly and all access quarterly. Remove access on the same day as a termination. | Role catalogue, privileged-access review | IT / Security | No |
| Company laptops or approved-device policy | Issue company devices or formally approve personal-device use with minimum security controls. Do not store customer data on unmanaged personal devices. | Device standard, issue register, approval record | IT / Security | Yes |
| Endpoint protection, encryption and patch management | Require disk encryption, screen lock, endpoint protection and timely patching. Verify compliance before granting access to sensitive systems. | Endpoint policy, compliance report | IT / Security | No |
| Password manager and secure credential procedures | Use a company password manager and unique credentials. Never share passwords in chat or email. Rotate secrets after a suspected compromise. | Password-manager policy, vault ownership | IT / Security | No |
| VPN or approved secure remote-access arrangement | Use approved secure access for administrative and production systems. Do not expose databases or internal tools directly to the public internet. | Remote-access standard, network diagram | IT / Security | No |
| Backup and disaster-recovery procedures | Back up critical data, test restoration and record recovery objectives. Protect backups with separate credentials and access controls. | Backup schedule, restore-test evidence | IT / Security | No |
| Incident response and breach-reporting process | Define severity, roles, containment, notification and post-incident review. Include legal, privacy and customer-communication steps. | Incident-response plan, contact tree, test record | Security / General Counsel | No |
| Acceptable-use and internet-use policy | Set rules for company systems, personal use, prohibited content, monitoring, AI tools and return of property. Do not promise privacy that the company cannot provide. | Adopted acceptable-use policy, acknowledgement | IT / Security / People Operations | Yes |

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Rules for AI tools, source code, customer data and confidential information | Prohibit entering customer data, credentials, source code or material non-public information into unapproved AI tools. Require human review of AI-generated output. | AI-use policy, approved-tool list, training record | Security / Engineering / Compliance | No |
| Asset register for laptops, phones, security keys and equipment | Record serial numbers, assigned user, location and return status. Reconcile the register periodically. | Asset register, reconciliation date | IT / Finance | No |
| Equipment return and access-revocation process | Disable accounts, revoke tokens, recover devices and keys, transfer data and record completion on the exit date. Do not rely on a verbal handover. | Offboarding checklist, revocation evidence | IT / Security / People Operations | Yes |

### Management and performance

Every employee needs a manager, written responsibilities, measurable objectives, regular feedback and a fair process for concerns and development.

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Clear departments and reporting lines | Publish departments, remits and reporting lines. Name an accountable manager for every function, including vacant roles covered on an interim basis. | Org chart, department remits | CEO / People Operations | No |
| A manager assigned to every employee | No employee should report to nobody. Record the manager, backup manager and escalation route in the personnel file. | Manager assignment in the workforce register | People Operations | No |
| Probation and onboarding procedures | Set a structured first week, 30/60/90-day plan, probation review (where lawful) and confirmation of policy acknowledgements and training. | Onboarding checklist, probation template | People Operations / Manager | Yes |
| Measurable job objectives and key performance indicators | Translate the job description into measurable outcomes. Review targets when priorities change; do not use impossible targets to force an exit. | Role scorecard, objective-setting record | Manager / People Operations | Yes |
| Regular one-to-one meetings | Hold documented one-to-ones at least monthly. Cover priorities, blockers, wellbeing, development and feedback. Keep notes proportionate and professional. | One-to-one template, meeting cadence | Manager | No |
| Performance reviews and promotion criteria | Use a consistent review cycle and written criteria for promotion, bonus and performance improvement. Separate performance from protected characteristics. | Review cycle, rating guide, promotion criteria | People Operations | No |
| Training and professional-development budget | Provide role, security, compliance and management training. Record completion and allocate a budget rather than promising unlimited development. | Training plan, budget, completion record | People Operations / CFO | Yes |

| Control | What must exist | Evidence | Owner | Launch-critical |
|---|---|---|---|---|
| Attendance, working-hours and time-off procedures | Record hours where required, set availability expectations and provide a clear leave-request route. Respect local rest-period and holiday rules. | Time-off policy, request workflow, attendance record | People Operations | No |
| Formal approval process for spending and commitments | Set thresholds, approvers and conflict-of-interest rules. Require written approval before an employee commits the company to a supplier, lease or contract. | Delegation of authority, approval matrix | CFO / COO | No |
| Succession and business-continuity planning | Identify key-person dependencies and interim coverage for executive, security, finance and product roles. Test the plan. | Succession map, continuity plan, test date | CEO / COO | No |

## 4. Launch-critical checklist

These are the 19 controls that must be complete or explicitly blocked with a named owner before the company treats itself as ready to employ people. The checklist does not replace the full register.

| # | Control | Register item |
|---|---|---|
| 1 | Confirm EIN issued and retain the notice | corp.ein |
| 2 | Confirm registered agent and corporate records | corp.registered-agent |
| 3 | Resolve trademark, source-code, domain and design IP assignments | corp.ip-assignment |
| 4 | Have employment and securities counsel review the employment documents | corp.counsel-review |
| 5 | Create the employee handbook | corp.handbook |
| 6 | Prepare employment contract templates for each hiring jurisdiction | corp.contracts |
| 7 | Prepare the NDA and IP assignment | corp.nda |
| 8 | Create job descriptions and salary bands | corp.job-descriptions |
| 9 | Set up personnel-file and onboarding procedures | corp.onboarding |
| 10 | Select a payroll provider for each country | payroll.provider |
| 11 | Confirm tax and payroll registrations | payroll.withholding |
| 12 | Check pension and employee-compensation obligations | payroll.pension |
| 13 | Arrange required insurance | protection.insurance |
| 14 | Set up leave, attendance and expense systems | payroll.leave |
| 15 | Set up company email and access controls | tech.email |
| 16 | Prepare approved devices and security policy | tech.devices |
| 17 | Create reporting lines and performance targets | mgmt.objectives |

| # | Control | Register item |
|---|---|---|
| 18 | Prepare onboarding and training programme | mgmt.onboarding |
| 19 | Create offboarding and access-revocation procedure | tech.offboarding |

## 5. Operating cadence

| Frequency | Employer activity |
|---|---|
| Before hiring | Approve the role, budget, contract, classification, work location and hiring authority. Confirm the payroll and insurance route. |
| Before first day | Verify documents, sign agreements, prepare equipment and access, and confirm the manager and first-week plan. |
| First day | Complete induction, security setup, policy acknowledgements, health-and-safety induction and payroll confirmation. |
| Every working day | Manage work, support the employee, address urgent issues and record material decisions. |
| Every payday | Calculate and pay wages, issue required payslips and process lawful deductions. |
| Monthly | Reconcile payroll, taxes, pension and contributions; review attendance, expenses and access permissions; hold one-to-ones. |
| Quarterly | Review performance, training, workforce risks, access and the budget. |
| Annually | Review salaries, contracts, benefits, policies, insurance and compliance; refresh the handbook and local addenda. |
| At termination | Calculate final entitlements, collect property, revoke access and preserve records. |

## 6. Record categories

### Employer and corporate records

- Corporate registration and EIN records
- Payroll registrations and tax filings
- Insurance policies
- Employment policies and handbook
- Organisation chart and approved job descriptions
- Workplace safety and risk records

### Individual employee file

- Application and CV
- Identity and work-authorisation records
- Signed employment contract
- NDA and IP assignment
- Tax and payroll forms

- Emergency contact
- Training acknowledgements
- Performance reviews
- Leave and attendance records
- Disciplinary or grievance records where applicable

### Payroll and benefits records

- Salary register
- Payslips
- Tax deductions and remittances
- Pension contributions
- Insurance and benefit enrolments
- Approved expenses
- Final-pay calculations

## 7. Departments and accountability

The job catalogue contains more granular hiring groups. This register uses the following operating departments for accountability and reporting. Every department needs a named manager, including where the role is filled on an interim basis.

| Department | Responsibility |
|---|---|
| Executive management | Set strategy, approve budgets, supervise departments and report to the board. Do not present a vacant executive role as appointed. |
| Engineering and product | Build, maintain, test and document the platform. Keep release, security and change records. |
| Cybersecurity and IT | Protect infrastructure, accounts, devices and customer data. Operate access reviews, incident response and recovery. |
| Quantitative research | Develop and validate analytical methods. Document assumptions, limitations and model risk. |
| AI and data | Maintain AI systems, data quality, testing and monitoring. Keep human review for customer-facing and regulated output. |
| Trading terminal | Maintain charting, indicators, heatmaps and order-flow features without presenting the company as a broker or exchange. |
| Broker integration | Maintain authorised, secure and appropriately scoped broker connections. Never imply a connection or permission that does not exist. |
| Customer support | Resolve customer issues, maintain case records and escalate complaints. Do not give personalised investment advice without authorisation. |
| Academy and education | Manage educational material, instructors and student support. Academy learners and instructors are product users, not employees. |

| Department | Responsibility |
|---|---|
| Marketing and media | Manage brand, campaigns, content and approved advertising. Do not promise investment returns or guaranteed payouts. |
| Sales and partnerships | Manage commercial leads, proposals, contracts and partner relationships. Record conflicts and do not promise unapproved terms. |
| Finance and accounting | Maintain books, budgets, payroll, financial controls and reporting. Separate payroll duties and require approvals. |
| Legal and compliance | Review contracts, privacy, marketing claims, regulatory boundaries and complaints. Maintain the issue and approval record. |
| Human resources | Recruitment, onboarding, records, performance, training and offboarding. Protect confidential employee data. |

## 8. Proposed benefits boundary

The benefit tiers below are a proposed framework, not existing entitlements. Equity, options, bonuses, health insurance, pensions and relocation support require board approval, plan documents, tax analysis and local-law review before anyone is promised them.

| Tier | Status | Note |
|---|---|---|
| Standard | proposed | A proposed framework. It is not an existing entitlement and requires board approval and local-law review. |
| Professional | proposed | A proposed framework for selected roles. No benefit exists until it is approved in writing and the plan or policy is adopted. |
| Executive | proposed | A proposed framework for approved executive appointments. Board approval, definitive documents and securities-law review are required before any promise. |

## 9. Jurisdiction boundary

### United States

Federal rules apply nationwide, then the state and local rules where the employee actually works. Delaware incorporation does not replace state payroll, withholding, insurance or leave registrations.

**Caution:** State and local rules can be more protective than federal law. Confirm the law of the employee's actual work location before the start date.

### Nigeria

A US company employing someone who works in Nigeria must establish an appropriate Nigerian employment and payroll arrangement. Delaware incorporation does not remove Nigerian employment, tax, pension, social-insurance or data-protection obligations.

**Caution:** Pension coverage, contribution rates, NSITF contributions and written-particulars requirements depend on the current law and the employment arrangement. Confirm with Nigerian counsel before the first payroll run. The commonly stated pension contribution reference is 10% employer and 8% employee for covered employees; do not treat that as a conclusion for every worker.

### Other countries

Do not use a US or Nigerian template for another country. Engage local employment counsel and a payroll provider before making an offer or setting a start date.

**Caution:** This register does not provide a legal conclusion for any country outside the United States and Nigeria.

## 10. Policy library and adoption

A policy document is not adopted because it appears in the pack. Record the approving body, adoption date and approval reference in the Workforce Compliance Register. Obtain local counsel review where the document applies outside Delaware or the United States.

| Document | File | Applies to | Owner | Status |
|---|---|---|---|---|
| Employee Handbook | 01-EMPLOYEE-HANDBOOK.md | All employees and contractors | People Operations / General Counsel | Controlled template |
| US Employment Contract Template | 02-EMPLOYMENT-CONTRACT-US.md | US employees; state addendum required | General Counsel | Controlled template |
| Nigeria Employment Contract Template | 03-EMPLOYMENT-CONTRACT-NIGERIA.md | Nigeria employees; local counsel review required | General Counsel | Controlled template |
| Confidentiality and IP Assignment Pack | 04-NDA-IP-ASSIGNMENT.md | All employees and contractors | General Counsel | Controlled template |
| Acceptable Use and Information Security Policy | 05-ACCEPTABLE-USE-AND-SECURITY.md | All employees and contractors | Security / General Counsel | Controlled template |
| Onboarding Pack | 06-ONBOARDING-PACK.md | All new employees | People Operations | Controlled template |
| Offboarding and Access-Revocation Pack | 07-OFFBOARDING-PACK.md | All employees and contractors | People Operations / Security | Controlled template |
| Payroll and Benefits Framework | 08-PAYROLL-AND-BENEFITS-FRAMEWORK.md | All employees; local addenda required | CFO / People Operations | Controlled template |
| Job Description Pack | 09-JOB-DESCRIPTION-PACK.md | Approved roles only | People Operations | Controlled template |
| US and Nigeria Jurisdiction Guide | 10-JURISDICTION-GUIDE-US-NIGERIA.md | US and Nigeria hires | General Counsel / People Operations | Controlled template |
| Employer Compliance Manual | 00-EMPLOYER-COMPLIANCE-MANUAL.md | Company-wide | COO / General Counsel | Controlled template |
| Employee File Checklist | 11-EMPLOYEE-FILE-CHECKLIST.md | All employees | People Operations | Controlled template |

## 11. Policy notes

- A policy is not adopted because a file exists. Record the approving body, date and reference before treating it as operative.

- Local law may require a works council, employee representative, translated document, statutory notice or specific language. Confirm before use.
- Do not promise equity, options, bonuses, health insurance or relocation support until the board, plan documents, tax analysis and local law support the promise.
- Never ask an employee to provide irrelevant medical, family, political, religious or financial information.
- Store identity, medical, immigration, payroll and background-check records in the controlled HR file with need-to-know access.
- The platform does not replace employment counsel, a payroll provider, an insurer or a local accountant.

## 12. Adoption and evidence standard

1. Identify the legal entity and the actual work location for every person.
2. Confirm the employment or contractor classification with local counsel.
3. Complete the payroll, tax, pension, insurance and workers-compensation registrations before the first pay run.
4. Obtain signed contracts and agreements before access to company systems or confidential information.
5. Record the evidence reference and approver in the register.
6. Review the register at least quarterly and after a material change in law, location, headcount or business model.
7. Do not mark an item complete because a document exists. Complete means the underlying obligation has been satisfied and the evidence can be produced.

**Approval record**

Approved by: _____

Title: _____

Date: _____

Board / counsel reference: _____

> *This manual does not create a legal approval. The platform records the evidence entered by an authorised operator.*
