TRADINGBIBLE HOLDINGS, INC.

CONTROLLED TEMPLATE · COUNSEL REVIEW REQUIRED

Job Description Pack

JOB-DESCRIPTIONS · VERSION 1.0 · 12 NOVEMBER 2026

CONTROLLED TEMPLATE · COUNSEL REVIEW AND LOCAL ADOPTION REQUIRED. This document is a company policy or contract framework, not an executed agreement, a legal opinion, a regulatory approval, a payroll filing, an insurance policy or a promise of a benefit. Record adoption and approval references in the Workforce Compliance Register before treating it as operative.

TRADINGBIBLE HOLDINGS, INC. — JOB DESCRIPTION PACK

Controlled template · Version 1.0 · 12 November 2026

> ***Controlled template — counsel review and local adoption required.*** *This document is a company policy or reference framework. It is not an executed agreement, a legal opinion, a regulatory approval, a payroll filing, an insurance policy or a promise of a benefit. Record adoption and approval references in the Workforce Compliance Register before treating it as operative. Local addenda control where they are more protective.*

1. How to use this pack

This pack contains 58 catalogue roles across 24 hiring groups. They are real operating roles in the company plan, but they are not all approved, funded, open or appointed. A role is approved only when the current hiring plan, headcount budget and written approval confirm it. An open role is not an existing executive or employee.

Before hiring, confirm the work country and state/region, employment or contractor classification, salary band, payroll route, insurance and local contract. Complete the jurisdiction checklist in the Employer Compliance Manual. Do not publish a role with a salary, benefit, equity or token promise that has not been approved.

Priority leadership roles (open plan, not appointments): Chief Operating Officer · Chief Financial Officer · Chief Technology Officer · Chief Revenue Officer · General Counsel.

3. Role descriptions

Leadership

1. Chief Technology Officer

Department: Leadership

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Priority leadership role in the current plan

Role description

Own the platform architecture, engineering operating model, reliability targets and security roadmap across the terminal, journal, broker integrations, AI coach and data platform. Partner with the founder on build-versus-buy decisions and the staged TBC technical programme.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Senior engineering leadership in fintech, trading or high-availability SaaS. Evidence of scaling a multi-team product org, running architecture reviews, incident response and secure SDLC. Strong written decision records.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

2. Chief Operating Officer

Department: Leadership

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Priority leadership role in the current plan

Role description

Run company operating cadence, cross-functional planning, vendor management and execution accountability. Turn product and compliance commitments into owned, dated operating plans.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Operating leadership at a scaling software or financial-services company. Strong planning, metrics and risk discipline. Comfortable with regulated-activity boundaries and board reporting.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

3. Chief of Staff

Department: Leadership

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Drive the founder operating system: priorities, decision memos, board and investor materials, cross-team follow-through and sensitive special projects. Keep legal, product and engineering gates visible and sequenced.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Excellent writing and analytical skills. Experience in strategy, consulting, venture or a fast-scaling product company. High discretion with confidential company information.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.

4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Security

4. Chief Information Security Officer

Department: Security

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own the security programme for customer accounts, trading data, payments, broker connections and the proposed digital-asset programme. Lead threat modelling, vendor assurance, incident response and security evidence for enterprise customers.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

CISSP/CISM or equivalent experience. Hands-on cloud, application and identity security background. Experience with fintech controls, incident command and third-party security reviews.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

5. Security Engineer — Application & Cloud

Department: Security

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Perform secure code review, dependency and cloud posture work, auth/session hardening, secret management and customer-facing security questionnaires.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

AppSec or cloud security experience, OWASP fluency, threat modelling and secure SDLC. Practical scripting for automation.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

6. IT Systems Administrator

Department: Security

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Manage identity, devices, access reviews, SaaS administration and endpoint hygiene for a remote team.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Google Workspace/Microsoft 365, SSO, MDM and access-review experience. Security-first mindset.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

7. Incident Response Analyst

Department: Security

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Maintain incident playbooks, run tabletop exercises, coordinate response and produce blameless post-incident reviews.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

SOC or incident-response experience, cloud forensics literacy and calm documentation under pressure.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Engineering

8. Head of Platform Engineering

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Lead the web platform, design-system implementation, performance, accessibility and release engineering. Own the frontend architecture for the terminal and the member portal.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Deep React/TypeScript experience, design-system ownership, performance profiling and CI/CD. Prior technical leadership of a product engineering team.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.

6. Confirm the manager, decision authority and first 90-day objectives.

---

9. Senior Full-Stack Engineer

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build member-facing product surfaces across React, Node and Supabase. Ship journal, analytics, billing and account workflows with tests and clear observability.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

5+ years shipping production web applications. Strong React, Node, SQL and API design. Comfortable owning a feature from schema to UI.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

10. Backend Engineer — Market Data & Broker APIs

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build and operate the market-data gateway, quote normalisation, broker connection services, reconciliation jobs and rate-limited provider adapters.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Node or Go backend experience, streaming data, REST/WebSocket integrations, caching and failure handling. Broker or trading-data experience strongly preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

11. Mobile Engineer — React Native

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own the phone application experience: navigation, offline states, push notifications, secure session storage and fast chart interactions. Work with design to make the mobile product feel native rather than condensed desktop.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Production React Native or native iOS/Android experience. Strong performance, accessibility and app-store release discipline.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

12. DevOps / Site Reliability Engineer

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own deployment pipelines, environment parity, observability, backups, alerting and disaster recovery. Improve uptime for the API, web app, market-data jobs and document services.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Linux, containers, reverse proxies, CI/CD and infrastructure-as-code. Experience with metrics, logs, tracing and on-call runbooks.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.

2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

13. QA Automation Engineer

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own regression coverage for the terminal, member portal, admin console and document workflows. Build stable Playwright suites and release gates that catch real failures.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Playwright/Cypress or equivalent, API testing, fixtures and CI integration. Strong bug isolation and clear reproduction writing.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

14. Integrations Engineer — Broker Connectivity

Department: Engineering

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Implement and support broker authentication, trade sync, position reconciliation and failure recovery across supported brokerage APIs.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

API integration engineering, OAuth, webhook reliability and reconciliation logic. Brokerage or trading-platform experience preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Data

15. Data Engineer — Analytics & Warehouse

Department: Data

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build the warehouse models, event pipelines and reporting datasets behind trade analytics, cohort reporting, product telemetry and billing reconciliation.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

SQL, Python, dbt-style modelling and event-schema design. Experience with privacy-aware analytics and data quality checks.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

16. Quantitative Analyst — Trading Analytics

Department: Data

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Define and validate performance metrics, expectancy, drawdown, risk-adjusted return and cohort benchmarks used in reports and coaching.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Quantitative background, Python/SQL and trading-statistics literacy. Experience with backtest and live-trade reconciliation.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

AI

17. Machine Learning Engineer — SI Coach

Department: AI

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Improve the SI trading coach: retrieval, prompt design, evaluation harnesses, safety boundaries and model-provider abstraction. Build measurable coaching quality rather than generic chat.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Applied LLM or ML engineering, evaluation-driven development, Python/Node and API integration. Trading-domain literacy is a strong plus.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.

3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

TBC Programme

18. Blockchain Engineer — TBC Programme

Department: TBC Programme

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Prototype and review the proposed TBC chain, token contracts, custody flows and migration accounting. Work only inside written approval gates; no public sale or transfer feature is authorised by this role.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Smart-contract and chain engineering experience, security review discipline, accounting reconciliation and incident planning. Cosmos/EVM exposure preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

19. Head of Digital Assets — TBC Programme

Department: TBC Programme

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Coordinate the proposed TBC programme across legal, finance, security and engineering. No sale, transfer, staking, governance or chain launch is authorised until written approvals exist.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Digital-asset programme leadership, regulatory awareness and strong controls discipline. Experience taking a token programme through counsel and security review preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

20. Tokenomics & Research Analyst

Department: TBC Programme

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Model illustrative supply, vesting and utility scenarios for review. Clearly label all scenarios as proposals and never present them as approved terms.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Economic modelling, spreadsheet/Python fluency and digital-asset research. Strong disclosure discipline.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

21. Smart Contract Security Reviewer

Department: TBC Programme

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Independently review proposed contracts, privileged roles, upgrade paths and bridge assumptions before any deployment.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Smart-contract security experience, audit portfolio and incident-response literacy. No deployment authority.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

22. Custody Operations Specialist

Department: TBC Programme

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Design custody, key-management, reconciliation and refund procedures for any future approved digital-asset product.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Digital-asset custody or treasury operations experience, strong controls and reconciliation discipline.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Product

23. Head of Product

Department: Product

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own product strategy, discovery and prioritisation across the terminal, journal, analytics, Academy and subscription surfaces. Keep the roadmap honest about what is live, proposed or gated.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Senior product leadership in fintech or SaaS. Strong discovery, metrics and written strategy. Experience shipping complex operator or trading tools.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

24. Technical Writer — Product & API

Department: Product

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Write product guides, API documentation, release notes, onboarding material and clear risk disclosures. Keep every claim aligned with shipped functionality.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Excellent technical writing, API literacy and editing discipline. Experience documenting developer products or regulated features.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.

4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Finance

50. Financial Controller

Department: Finance

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own monthly close, revenue recognition, subscription reconciliation, accounts payable, payroll support and audit readiness.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Qualified accountant or equivalent experience, SaaS/Stripe revenue fluency and strong controls discipline.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

51. Internal Auditor

Department: Finance

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Test key controls across billing, access, vendor management, incident response and the proposed digital-asset programme. Report findings without owning operations.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Internal audit or risk assurance experience, evidence-based testing and clear reporting. CIA/CISA a plus.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Legal

52. Legal Counsel — Fintech & Digital Assets

Department: Legal

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Manage product terms, privacy, commercial contracts, marketing review and the TBC legal workstream with external counsel. Do not opine on regulated activity without qualified local advice.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Licensed lawyer with fintech, payments or digital-asset experience. Strong legal writing and cross-functional judgement.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Compliance

53. Compliance Manager — AML/KYC

Department: Compliance

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build and operate KYC/AML procedures for applicable products, sanctions screening, escalation and recordkeeping. Keep token and brokerage boundaries explicit.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Compliance operations experience in fintech or payments, AML certification and practical control design.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

People

54. People Operations Partner

Department: People

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own onboarding, staff records, policy administration, payroll coordination and manager support across a remote team.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

People operations experience, employment-law awareness and strong systems discipline. International contracting experience preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.

3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

55. Talent Acquisition Lead

Department: People

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build the hiring engine for engineering, markets, Academy and operations: scorecards, structured interviews, candidate care and offer management.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Technical and go-to-market recruiting experience, structured interviewing and strong candidate communication.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

Operations

56. Program Manager — Product & Compliance

Department: Operations

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Run cross-functional programmes that touch product, legal, security and finance. Keep decision logs, dependencies and approval gates current.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Programme management in regulated or high-growth environments, excellent documentation and risk escalation.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

57. Business Operations Analyst

Department: Operations

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Build operating dashboards, pricing and margin analysis, vendor reviews and process-improvement cases.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Analytical experience, SQL/Sheets fluency and strong business writing. SaaS or fintech operations preferred.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.
3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

58. Procurement & Vendor Manager

Department: Operations

Employment type: full-time

Location: Remote · global

Catalogue status: open — this is a hiring-plan status, not an appointment or a funded headcount approval.

Priority: Catalogue role; requires separate approval

Role description

Own vendor selection, security and privacy review coordination, renewals and cost control across data, AI, cloud and marketing vendors.

Compensation: competitive USD base plus a discretionary proposed TBC allocation. TBC is not issued; any allocation is subject to legal, technical and security approval.

Requirements

Procurement or vendor-management experience, contract literacy and security-review coordination.

Compensation and benefits

Any fiat salary, bonus, equity, option or benefit requires a written approval and the applicable plan documents. A proposed TBC allocation is not salary, equity or an issued token.

Before an offer

1. Confirm approved headcount, budget and salary band.
2. Confirm the lawful employing entity and work location.

3. Confirm employee or contractor classification.
4. Confirm payroll, tax, pension, insurance and workers-compensation obligations.
5. Prepare the local contract, NDA, IP assignment and policy acknowledgements.
6. Confirm the manager, decision authority and first 90-day objectives.

---

4. Hiring control

The company should not hire all catalogue roles at once. Start with a controlled core team and expand only when revenue, funding and operational need justify the role. Record every approved role in the workforce budget and every appointed person in the employee register. Do not present an open role, candidate or proposed adviser as an appointed executive.

> *This pack is a role catalogue, not an offer, a promise of employment, a compensation approval or evidence that a role is funded.*
